## EDI training for industry associations

**Ahmedabad:** Entrepreneurship Development Institute of India (EDI) in the city is hosting a training programme that aims at improving competitiveness of the micro, small and medium enterprises (MSMEs) across the country. The intend is to train executives from 30 selected MSMEs industry associations in various sectors.

The industry associations are being trained to deliver better services to their member MSMEs.

With the support of Deutsche Gesellschaft for Internationale Zusammenarbeit (GTZ), ministry of MSME and Small Industries and Development Bank of India (SIDBI), the event will continue till November 19.

“By the end of the programme, the participants will come up with business plans for the associations that will enable them provide better services to the MSMEs and earn profit out of it,” said EDI faculty member Sanjay Patel. TNN
